

Field Trauma Care for Police Officers

2 Day Train the Trainer Course

February 16th – 17th, 2012

Cost: \$300.00 per Participant - Provides 3 year Certification and Training Trauma Pak

Location: Pelham Specialty Training, 699 E. Dillman Rd. Bloomington, IN 47401

Day 1 Topics:

Course looks at a number of case studies to determine “What’s Killing Cops” - how officers have died and what could have been done to save them. Each course explores the survivability rate of traumatic injuries when immediate care is applied in the field prior to EMS intervention. Officers will understand why it is imperative to have crucial supplies within reach at all times.

Body Composition/Basic Anatomy

-What within the body is critical to life, and what is survivable

Wound Ballistics

- A look at differing calibers/rounds/projectiles and affect to body

Tourniquets/Application of Tourniquets

-Comparison of different types of tourniquets and how they are used

Chest Seals/Application of Chest Seals

-Comparison of different types and how they are applied

Wound Packing

- Learning how to pack a wound

Trauma Care Without Medical Supplies

-Learning to improvise with items found in immediate environment

Self Care Scenarios

- Application of care to self

Buddy Care Scenarios

- Administering care to another officer

Low Light Scenarios
